Work Experience

Oracle NetSuite

January 2022 – August 2022

Software Engineer in Test Intern

Austin, Texas

- Developed, tested, and maintained Java/TypeScript ERP web services, showcasing Oracle Database query proficiency.
- Composed test plans and test codes for various types of tests, achieving an average code coverage of above 90%.
- Gained hands-on experience in RESTful API testing and OAuth 2.0 authentication using Postman API Platform.
- Acquired expertise in JetBrains TeamCity, effectively navigating the tool and understanding CI/CD workflows to pinpoint build and integration test failures.
- Attained proficiency in Jira and Confluence while working in a dynamic Agile environment, participating in daily Scrum meetings to enhance collaboration and productivity.
- Participated in a Hackathon 4Good event, providing NetSuite ERP solutions to support nonprofit customers.

An-Hui Information Technology Co., Ltd

July 2021 – December 2021

Full Stack Developer

Taipei, Taiwan

- Developed a RESTful API service in Go and Gin framework for membership management, ordering and transaction.
- Streamlined the procedure for automatically generating interactive API documents in Swagger format.
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.
- Developed company website with Golang and Hugo framework, hosted on Amazon VPS.
- Built and managed Docker services for project management and monitoring systems, including Redmine, Grafana, and Prometheus.

National Taiwan University

September 2018 – June 2020

Network Infrastructure Administrator

Taipei, Taiwan

- Led the network administration team, managing maintenance for switches, firewall, routers, and NAS.
- Developed PHP/JavaScript web applications, including Master's program application and online thesis submission systems for 1000+ applicants and students.
- Provided technical support for computer hardware, servers, virtual machines, and Windows applications.

Technical Skills

Languages/IDEs: Java, Go, Python, HTML/CSS, JavaScript, SQL, PHP, Bash, LaTeX, VS Code, IntelliJ IDEA

Technologies/Frameworks: Linux, Git, Perforce, TeamCity, Docker, PyTorch, HuggingFace

Others: Agile methodology, Scrum, Jira, Confluence

Extracurricular/ Leadership

Rutgers University

2017 – 2018

Exchange Student Program, GPA 3.93/4.0

New Brunswick, New Jersey

- Awarded a scholarship sponsored by the College of Science for outstanding achievement in overseas study.

National Taiwan University Symphony Orchestra

2013 - 2020

President, 2015 - 2016

Taipei, Taiwan

- Led 80+ members, organized weekly meetings, and oversaw progress and budget for domestic and overseas concerts.
- Represented the university in communications with orchestra clubs from other countries, fostering international collaborations and cultural exchanges.
- Participated actively in weekly rehearsals and showcased percussion skills on 20+ formal occasions during a 7-year span.
